of 1991.  
President.  
22 USC 5601  
note.

## SEC. 301. SHORT TITLE.

This title may be cited as the “Chemical and Biological Weapons Control and Warfare Elimination Act of 1991”.

## SEC. 302. PURPOSES.

22 USC 5601.

The purposes of this title are—

(1) to mandate United States sanctions, and to encourage international sanctions, against countries that use chemical or biological weapons in violation of international law or use lethal chemical or biological weapons against their own nationals, and to impose sanctions against companies that aid in the proliferation of chemical and biological weapons;

(2) to support multilaterally coordinated efforts to control the proliferation of chemical and biological weapons;

(3) to urge continued close cooperation with the Australia Group and cooperation with other supplier nations to devise ever more effective controls on the transfer of materials, equipment, and technology applicable to chemical or biological weapons production; and

(4) to require Presidential reports on efforts that threaten United States interests or regional stability by Iran, Iraq, Syria, Libya, and others to acquire the materials and technology to develop, produce, stockpile, deliver, transfer, or use chemical or biological weapons.

## SEC. 303. MULTILATERAL EFFORTS.

22 USC 5602.

(a) **MULTILATERAL CONTROLS ON PROLIFERATION.**—It is the policy of the United States to seek multilaterally coordinated efforts with other countries to control the proliferation of chemical and biological weapons. In furtherance of this policy, the United States shall—

(1) promote agreements banning the transfer of missiles suitable for armament with chemical or biological warheads;

(2) set as a top priority the early conclusion of a comprehensive global agreement banning the use, development, production, and stockpiling of chemical weapons;

(3) seek and support effective international means of monitoring and reporting regularly on commerce in equipment, materials, and technology applicable to the attainment of a chemical or biological weapons capability; and

(4) pursue and give full support to multilateral sanctions pursuant to United Nations Security Council Resolution 620, which declared the intention of the Security Council to give immediate consideration to imposing “appropriate and effective” sanctions against any country which uses chemical weapons in violation of international law.

(b) **MULTILATERAL CONTROLS ON CHEMICAL AGENTS, PRECURSORS, AND EQUIPMENT.**—It is also the policy of the United States to strengthen efforts to control chemical agents, precursors, and equipment by taking all appropriate multilateral diplomatic measures—

(1) to continue to seek a verifiable global ban on chemical weapons at the 40 nation Conference on Disarmament in Geneva;

(2) to support the Australia Group's objective to support the norms and restraints against the spread and the use of chemical warfare, to advance the negotiation of a comprehensive ban on chemical warfare by taking appropriate measures, and to protect the Australia Group's domestic industries against inadvertent association with supply of feedstock chemical equipment that could be misused to produce chemical weapons;

(3) to implement paragraph (2) by proposing steps complementary to, and not mutually exclusive of, existing multilateral efforts seeking a verifiable ban on chemical weapons, such as the establishment of—

(A) a harmonized list of export control rules and regulations to prevent relative commercial advantage and disadvantages accruing to Australia Group members,

(B) liaison officers to the Australia Group's coordinating entity from within the diplomatic missions,

(C) a close working relationship between the Australia Group and industry,

(D) a public unclassified warning list of controlled chemical agents, precursors, and equipment,

(E) information-exchange channels of suspected proliferants,

(F) a "denial" list of firms and individuals who violate the Australia Group's export control provisions, and

(G) broader cooperation between the Australia Group and other countries whose political commitment to stem the proliferation of chemical weapons is similar to that of the Australia Group; and

(4) to adopt the imposition of stricter controls on the export of chemical agents, precursors, and equipment and to adopt tougher multilateral sanctions against firms and individuals who violate these controls or against countries that use chemical weapons.

section, a list of goods and technology that would directly and substantially assist a foreign government or group in acquiring the capability to develop, produce, stockpile, or deliver chemical or biological weapons, the licensing of which would be effective in barring acquisition or enhancement of such capability.

“(2) REQUIREMENT FOR VALIDATED LICENSES.—The Secretary shall require a validated license for any export of goods or technology on the list established under paragraph (1) to any country of concern.

“(3) COUNTRIES OF CONCERN.—For purposes of paragraph (2), the term ‘country of concern’ means any country other than—

(d) **WAIVER.**—

(1) **CRITERIA FOR WAIVER.**—The President may waive the application of any sanction imposed with respect to a country pursuant to this section—

(A) if—

(i) in the case of any sanction other than a sanction specified in subsection (b)(2)(D) (relating to import restrictions) or (b)(2)(E) (relating to the downgrading or suspension of diplomatic relations), the President determines and certifies to the Congress that such waiver is essential to the national security interests of the United States, and if the President notifies the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives of his determination and certification at least 15 days before the waiver takes effect, in accordance with the procedures applicable to reprogramming notifications under section 634A of the Foreign Assistance Act of 1961, or

(B) The same restrictions of subsection (p) of section 6 of the Export Administration Act of 1979 (50 U.S.C. For purposes of this subparagraph, any contract or agreement the performance of which (as determined by the President) would have the effect of assisting a foreign government in using chemical or biological weapons in violation of international law or in using lethal chemical or biological weapons against its own nationals shall be treated as constituting a breach of the peace that poses a serious and direct threat to the strategic interest of the United States, within the meaning of subparagraph (A) of section 6(p) of that Act.

(2) SANCTIONS APPLIED TO EXISTING CONTRACTS.—The sanctions described in paragraphs (1), (2), and (3) of subsection (a) shall apply to contracts, agreements, and licenses without regard to the date the contract or agreement was entered into or the license was issued (as the case may be), except that such sanctions shall not apply to any contract or agreement entered into or license issued before the date of the presidential determination under section 306(a)(1) if the President determines that the application of such sanction would be detrimental to the national security interests of the United States.
